ANNOUNCEMENT.

FOR REPRESENTATIVE.

We are authorized to announce
that E. Day, of Morehead, can
date for re-election as Representative
from Bath and Rowan counties, subject
to the action of the Democratic party.

We are authorized to announce
Walter Sharp, of Sharping, as a
candidate for Representative from
Bath and Rowan counties, subject
to the action of the Democratic party.

The rapid development of the
South is evidenced by New Orleans
and Galveston advancing to second
and third respectively in population
being exceeded only by New York alone.
Boston, Baltimore and Philadelphia
all have dropped in relative
rank. And the Northeastern
and Southern States have advanced
in size at the rate of about four
miles of new railway building or
under contract, while the Northern,
Eastern and Western States have
only 7,744.

As Gen. Hancock said of the
matter, "The South is rising."
Very few large cities, or States, for
that matter, ever consistently point
the finger of scorn at other sections
of the country. The teasers' strike
at the developed conditions of regard of the
in the second city of the land as
demonstrating as anything that has
happened in the country recently.
Neither the city government nor the State shows a determination
to control the situation. The fear
of the political effect of pressuring
the South to do so is what
controls the Democratic city administration
and the Republican State
government. Their lack of effective
measures at least justifies this
belief.
